

RealScan-G10

Compact Ten-print Live Scanner

RealScan-G10 is a compact live-scanner for single and ten-print capture. Suprema's advanced optical technology allows high-speed image capturing and seamless image processing. IP54-rated dust and water resistant housing makes it suitable for indoor and mobile environments. With its proven reliability of FBI certification, RealScan-G10 is the perfect portable live-scanner for civil and criminal applications.

RealScan-G10

Compact Ten-print Live Scanner

FBI IAFIS Appendix F Certification

The certification provides assurance to users that RealScan-G10 meets or exceeds FBI interoperability standards and will work with the Integrated Automated Fingerprint Information System (IAFIS). It ensures that the images used are high quality and supports all phases of identification for fingerprint experts and the IAFIS. Appendix F has stringent image quality conditions, focusing on the human fingerprint comparison and facilitating large scale machine one-to-many matching operation.

Advanced Rolled Image Construction Technology

RealScan-G10 features Advanced Rolled Image Construction technology using Suprema's unique slip detection algorithm for constructing rolled fingerprint images. With ARIC technology, RealScan-G10 performs over 15 fps frame rate in roll capturing which ensures highest image quality and lower error rate in capturing sequences.

Extra Wide Platen for Easier Capturing

Wide & solid, the RealScan-G10's 3.5 inch platen is the largest size in its class and ensures easier capturing when placing hands. The solid & scratch-free surface makes it durable for many kinds of stains & damages.

Rugged IP54 Dust & Waterproof Structure

RealScan-G10's body structure has been comprehensively sealed against invasive moisture, dust and liquid. Featuring superb IP54 rated protection through meticulous sealing, combined with extra protective engineering, ensures faultless operation even under harsh conditions.

Powerful Internal DSP

RealScan-G10 is equipped with powerful CPU which enables high-speed image processing in capturing, storing, processing and transferring fingerprint data. With the CPU, Suprema's unique Image Pre-Processing technique results more frame rates in capturing and richer pixel throughput hence produces better image quality.

Specifications

| | | |
|---------------|-------------------------|--|
| Main | Fingerprint Type | Single Rolls / Single Flats / Four Finger Slaps / Two Thumbs |
| | Capturing Speed | 4+4+2 in 15 seconds |
| | Resolution | 500 dpi, 256 gray |
| | Platen Size | 89 x 80 mm (3.5 x 3.15") (W x L) |
| | Sensing Area | 81.28 x 76.2 mm (W x L) |
| | Image Size | Four Finger Slap: 1600 x 1500 pixels / Finger Roll: 800 x 800 pixels |
| Interface | Image Quality Standards | FBI IAFIS Appendix F |
| | USB | 2.0 High-speed (Data & Power) |
| | IP Rating | IP54 |
| | Speakers | Built-in |
| | LED indicator | Yes |
| | Operating Temperature | -10°C ~ +55°C |
| | Operating Humidity | 10 ~ 90%, non-condensing |
| | Dimension | 152 x 152 x 127 mm (5.9" x 5.9" x 5.0") (W x L x H) |
| | Weight | 1.8kgs (3.96lbs) |
| | Certification | CE, FCC, KC, UL, ROHS, USB-IF, WHQL |
| Compatibility | Operating System | - Windows : Windows 8 and above, 32/64bit - Linux : Ubuntu, Debian, Fedora, Cent OS 32/64bit - Android 5.0 and above |

Applications

- Criminal identification
- Airport and border check
- Civil identification
- Employee background check
- National ID cards
- e-Passport and Visa
